CAREER JOURNEY & EXPERIENCE

OPERATIONAL PHILOSOPHY

Across different sectors, my **core contribution** has remained constant: building the invisible structures and SOPs that ensure complex operations run with 100% reliability and zero ambiguity.

- **Systematic** by Nature: A lifelong habit of quantifying, listing, and arranging data to eliminate ambiguity in both personal and professional projects.
- **Cost-Efficiency** Driven: Naturally inclined toward deep research and procurement analysis to ensure maximum value and cost optimization.
- **Technologically** Adaptable: Early adopter of AI tools and digital platforms, with a natural talent for rapidly mastering new technical "slang" and industry frameworks.
- **People-Centric Systems**: Utilizing an observational approach to human relationships to design SOPs that actually work for the people using them

I am STRICT to not only MYSELF, to TIME but also to my collaborators. I cherish **HIGH EFFICIENCY**.

It's an automatic goal for every job that I accomplish to have SPEED and QUALITY.

SELF EXPLORATION & CAREER PLANNING

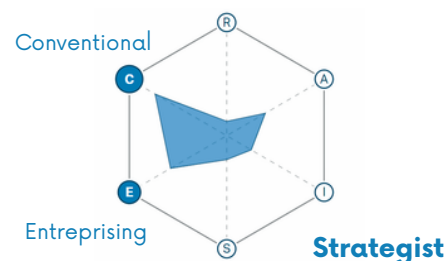

- MBTI, RIASEC(Holland Code), DISC, F4S

Strength

- Motivated by clear and **systematic structure**, preferring to **plan** first before tackling tasks.
- Work well with **rules**, enjoy following **guidelines**, **meet deadlines** and complete tasks that require meticulousness or **attention to detail**.
- High appreciation for **routine**, **consistency** and **efficiency** in work.
- Places high importance in **research**, **data** or **external reference** when making decision.
- **Value recognition** and being rewarded for accomplishment.
- Solve everyday problems with **realistic**, **actionable solutions** that genuinely help people.
- **Natural leader**, and are energized by having an impact on others.

					Ms. An is a great teacher. This teacher can drive the students in the course without feeling bored and can also improve the atmosphere. She will do her own responsibility and insist on observing the progress of each student.	It can be said that some simple content focus will make students understand faster and improve the efficiency of homework completion.
